

Town of Arnprior
Regular Meeting of Council: January 23rd, 2023
Correspondence Package No. I-23-JAN-02

Recommendation:

That the Correspondence Package No. I-23-JAN-02 be received as information and filed accordingly.

General Information Items:

- 1. Correspondence from the Province of Ontario**
 - a) Ontario Creating Conditions for Attracting Good Jobs and Investments
 - b) Premier Doug Ford Issues Statement on the Passing of The Honourable David C. Onley, Former Lieutenant Governor of Ontario
 - c) Ontario Reducing Wait Times for Surgeries and Procedures
- 2. Correspondence from the County of Renfrew**
 - a) Renfrew County 2023 Ontario Winter Games announce official Games' Values with CNL
- 3. Correspondence from the Renfrew County District Health Unit**
 - a) RCDHU Continues to Encourage Residents to Get a COVID-19 Booster Dose
- 4. Correspondence from Association of Municipalities of Ontario (AMO)**
 - a) Watch File – January 5th, 2023
 - b) Watch File – January 12th, 2023

5. Correspondence from the Renfrew County 55+ Seniors Games

- a) [Call for Board Members](#)

6. Correspondence from Special Olympics – Arnprior Community

- a) [Thank You Letter](#)

7. Correspondence from the Arnprior Regional Health Foundation

- a) [Municipal Notification Letter – Jeep Adventure Lottery](#)

STATEMENT

Ontario Creating Conditions for Attracting Good Jobs and Investments

Domestic and international companies invest billions in Ontario

January 06, 2023

[Economic Development, Job Creation and Trade](#)

TORONTO — Vic Fedeli, Minister of Economic Development, Job Creation and Trade, issued this statement following today's monthly employment release by Statistics Canada that showed employment in Ontario increased by 42,100 jobs in December 2022, with total employment up by 104,500 in 2022:

"Today's job numbers show that our government's plan to build a stronger Ontario is working. With many more good-paying jobs across multiple sectors, we have added over a half-million jobs since our government took office in June 2018 and are leading the nation in job creation.

In 2022, Ontario secured more than 150 new investment deals from a wide range of sectors including automotive, technology, manufacturing and life sciences. These investments will create thousands of new good-paying jobs for people across the province. Ontario is truly a leading destination for job creators of all sizes from savvy start-ups to large multi-nationals.

Among these key investments was a more than [\\$2 billion investment by GM Canada](#) to retool their Oshawa and CAMI facilities. With funding and support from our government, the CAMI facility in Ingersoll — Canada's first all-electric vehicle manufacturing facility — opened last month, and the first [BrightDrop Zevo 600s](#) rolled off the assembly line marking a historic milestone in EV production. The cars of the future will be built from start to finish in Ontario, by Ontario workers.

As we continue to make investments to improve our province's competitive advantage, more companies are moving their operations back to Ontario. In 2022, companies invested \$93 million to reshore, creating more good-paying jobs. We're proud to support these efforts by companies like [Cyclone Manufacturing](#), [Greenlid](#) and [Quick Plug CA](#).

In the coming year, our government will continue to build Ontario by driving innovation and creating meaningful opportunities for people, families and businesses. We're strengthening our relationships with economic partners both domestically and internationally, including those we met with during our 2022 trade missions to [the United Kingdom](#), [Belgium](#), [South Korea](#), [Japan](#), [Germany](#), [Austria](#) and [India](#).

We look forward to the new year and the opportunity to continue to showcase all Ontario has to offer."

STATEMENT

Premier Doug Ford Issues Statement on the Passing of The Honourable David C. Onley, Former Lieutenant Governor of Ontario

January 15, 2023

[Office of the Premier](#)

TORONTO — Today, Premier Doug Ford issued the following statement to commemorate the passing of The Honourable David C. Onley, former Lieutenant Governor of Ontario:

“I was deeply saddened to hear about the passing of Ontario’s 28th Lieutenant Governor, The Honourable David Onley.

Mr. Onley served the province with honour and distinction from 2007 until 2014. As Lieutenant Governor, and throughout his life, he worked tirelessly to raise public awareness about accessibility issues, encouraging people “to see the ability, rather than the disability”. He was also a great champion of expanding reconciliation efforts with Ontario’s Indigenous peoples in his role as representative of the Crown, work that continues to this day.

His contributions to the province and his unwavering commitment to public service will long be remembered and celebrated.

On behalf of all Ontarians, I am sending our thoughts and prayers to his wife Ruth Ann and the entire Onley family during this difficult time.”

NEWS RELEASE

Ontario Reducing Wait Times for Surgeries and Procedures

Community surgical and diagnostic centres connecting people to faster, more convenient care with your health card

January 16, 2023

[Office of the Premier](#)

[Health](#)

TORONTO — The Ontario government is making it easier and faster for people to access the publicly-funded surgeries and procedures they need by further leveraging community surgical and diagnostic centres to eliminate surgical backlogs and reduce wait times. As the government significantly expands the number of surgeries being done through community surgical and diagnostic centres, it will do so with measures in place to protect the stability of health human resources at public hospitals, including requiring new facilities to provide detailed staffing plans as part of their application and requiring a number of physicians at these centres to have active privileges at their local hospital.

“When it comes to your health, the status quo is no longer acceptable,” said Premier Doug Ford. “Our government is taking bold action to reduce wait times for surgeries, all while ensuring Ontarians use their OHIP card to get the care they need, never their credit card.”

Community surgical and diagnostic centres have been valuable partners in responding to the pandemic and addressing the pandemic-related backlog in surgeries. Increasing community delivery of surgeries has proven to increase patient and provider satisfaction and reduces the risk of a rescheduled appointment. Surgeries performed at these centres will be publicly-funded.

Ontario has a three-step plan that better integrates and uses these state-of-the-art facilities to speed up how quickly people are able to get surgeries and procedures using their health card.

Step One: Ontario is urgently tackling the existing backlog for cataract surgeries, which has one of the longest waits for procedures. New partnerships with community surgical and diagnostic centres in Windsor, Kitchener-Waterloo and

Ottawa will add 14,000 additional cataract surgeries that will be performed each year. This number represents up to 25% of the province's current cataract waitlist, and accounts for the estimated COVID-related backlog of cataract surgeries. These centres will perform the 14,000 additional surgeries with existing health human resources.

Ontario is also investing more than \$18 million in existing centres to cover care for thousands of patients, including more than 49,000 hours of MRI and CT scans, 4,800 cataract surgeries, 900 other ophthalmic surgeries, 1,000 minimally invasive gynecological surgeries and 2,845 plastic surgeries such as hand soft tissue repair. Surgical wait lists are anticipated to return to pre-pandemic levels by March 2023, barring operational issues.

Step Two: To further reduce wait times, Ontario is expanding the scope of community surgical and diagnostic centres to address regional needs with a continued focus on cataracts, as well as MRI and CT imaging and colonoscopy and endoscopy procedures. To start as early as 2023, these procedures will be non-urgent, low-risk and minimally invasive and, in addition to shortening wait times, will allow hospitals to focus their efforts and resources on more complex and high-risk surgeries.

Step Three: Early detection and diagnosis of a health issue has an immense benefit on a patient's quality of life, prognosis and treatment path. As a next step, the government will introduce legislation in February that will, if passed, allow existing community diagnostic centres to conduct more MRI and CT scanning so that people can access publicly funded diagnostic services faster and closer to home. Starting in 2024, this next step will also expand surgeries for hip and knee replacements. Legislative changes will also, if passed, strengthen oversight of community surgical settings so that patients can continue to expect to receive the world class care they know and deserve and provide the province with more flexibility to continue to expand access to more surgeries and further reduce wait times. As the province expands the role of community surgical and diagnostic centres, Ontario Health and the Ministry of Health will continue to work with system partners and clinical experts to put in place the highest standards for quality and safety.

"Timely and convenient access to surgery and diagnostic imaging is critical to keeping people healthy," said Sylvia Jones, Deputy Premier and Minister of Health. "This plan will boost the availability of publicly funded health services in Ontario, ensuring that Ontarians currently waiting for specialized surgeries will have greater access to the world class care they need, where and when they need it."

As the government shortens wait times using community surgical and diagnostic centres, Ontario Health will ensure that these centres are included in regional health system planning. Funding agreements with new community surgical and diagnostic centres will require these facilities to work with local public hospitals to ensure health system integration and linkages, including connection and reporting into the province's wait times information system and participation in regional central intakes, where available. Community surgical and diagnostic centres will also coordinate with local public hospitals to accept patients that are being referred, ensuring people get the surgery they need as quickly as possible.

Quick Facts

- There are currently 206,000 people estimated to be waiting for surgical procedures. For reference, last fall, there were approximately 209,000 patients waiting for a hospital operating room-based surgical procedure in Ontario, and about 200,000 before the pandemic. Further information on surgical wait times is available [here](#).
 - Community surgical and diagnostic centres licensed under the Independent Health Facilities Act currently perform approximately 26,000 OHIP-insured surgeries and procedures annually.
 - Ontario is investing \$300 million in 2022/23 as part of the [surgical recovery strategy](#) to increase scheduled surgeries and procedures, as well as appropriate diagnostic imaging services with a focus on areas with the greatest reduction in services due to the COVID-19 pandemic.
 - Ontario's surgical recovery strategy prioritizes patients waiting longer than recommended in clinical guidelines. In 2022/23, the government continues to offer premiums to hospitals to support completion of over 200,000 surgeries and procedures.
 - The government is also investing in digital tools to enhance coordination of surgical services between hospitals and enable better patient flow through the implementation of the Centralized Waitlist Management (CWM) program.
 - Investments in the CWM program are providing funding for regionally led projects across the province that support a more equitable distribution of surgical cases and reductions in patient wait times, as well as for Ontario Health's development of the technical infrastructure required to support centralized waitlist management at the provincial level.
-

Quotes

"Ontario's hospitals have a long history of leadership in clinical innovation and working collaboratively to implement new ways to reduce wait times and deliver exceptional patient-centred care in a safe and timely manner. The Ontario Hospital Association (OHA) welcomes the opportunity to work together with government and system partners to integrate Community Surgical Centres into Ontario's health care system and establish new partnerships between hospitals and community-based surgical clinics to help ensure access to care for patients. Given the hugely disruptive impact of the COVID-19 pandemic on hospitals, health human resources and wait times for services, it is essential that the expanded use of Community Surgical Centres into new areas of clinical activity take place in a planned manner with appropriate change management and risk management measures in place. As always, by working together as Team Ontario, we can overcome any challenge and deliver on our shared commitment to strengthening our public healthcare system in service of the people of Ontario."

- Anthony Dale

President and CEO, Ontario Hospital Association

"As a surgeon, I feel any measure that will allow for more surgeries and cut wait times should be considered. Expanding the scope of Community Surgical Centres is a measure that could potentially help reduce wait times across the province. With the proper safeguards that ensures staffing in hospitals won't be impacted and IHFs are affiliated with existing hospitals to support patients throughout their care journey, this could benefit many patients and families in Ontario. We look forward to working with the Ontario government to develop this model to best serve Ontarians."

- Dr. Amit Atrey

Assistant Professor of Orthopaedics University of Toronto Staff Trauma & Arthroplasty surgeon, St Michael's Hospital

"Experience elsewhere has shown that providing outpatient surgeries and procedures in the community greatly improves the patient experience. Patients get their surgeries sooner, have lower rates of infection and get to go home the same day. We look forward to working with the government to develop a strategy to make sure these new centres do not take resources away from hospitals or exacerbate existing health human resources challenges."

- Dr. Rose Zacharias
President, Ontario Medical Association

"This is an important solution that can help address wait times, one of the biggest structural problems in the health-care system. The OMA looks forward to working with the government to implement this model of care that will expand capacity throughout the health-care system. Integrating these new centres with hospitals and the broader health-care system will help ensure high-quality care and patient safety and free up beds and operating rooms for emergency, acute and complex cases."

- Allan O'Dette
CEO, Ontario Medical Association

"Sunnybrook has had success in reducing patient wait times for both low risk and complex surgeries by partnering with health care organizations outside of the hospital to perform endoscopies, cataract procedures, and hearing loss treatments. We have also been able to achieve reductions in wait times by partnering on regional models of care with our fellow hospitals. Reducing wait times is a priority for everyone in health care and it is an issue that requires innovation and investment on a number of fronts. From embracing new models of care to ensuring our most important resource, our people, have the support they need to succeed, we are committed to improving the Ontario health care system in every way possible. We look forward to working with the government to ensure all Ontarians are able to access care in a timely and safe manner."

- Dr. Andy Smith
President and CEO, Sunnybrook Health Sciences Centre

"Today's announcement, focused on day surgeries which provide patients with improved quality of life, is an important step in helping to reduce the surgical backlog and getting people the surgeries they need in a timely manner, all while protecting universal access. I look forward to working with the government, system partners and the potential centre's to develop the framework needed to maintain the integrity of our public system regarding staffing and quality assurance."

- Dr. Kevin Smith
President and CEO, University Health Network

"Community-based surgical facilities can help ensure timely access to safe, high quality and personalized care. With the significant and growing backlog of surgical procedures, today's announcement is a positive step forward for patients, communities and the Ontario health system. We look forward to working with government and partners to ensure an integrated and sustainable approach."

- John Yip
President and CEO, SE Health

"We are committed to reducing wait times so that all Ontarians can get timely access to quality care. In partnership with health system providers, and informed by best practice, data and evidence, we will ensure system integration that supports provincial reporting, coordinated planning and equitable access for patients across the province."

- Dr. Chris Simpson
Executive Vice President Medical, Ontario Health

"The Ontario Association of Radiologists welcomes the government's plans to reduce wait times for surgical and diagnostic services. Ontario's healthcare system was tested during the COVID-19 pandemic, and while it continues to recover, innovation is necessary to overcome systemic challenges. As the government moves forward with these investments and system improvements, protecting hospitals' health human resources will be critical to the success of these initiatives. This will require continued investments in training and re-skilling programs, that will both support the ongoing surge in healthcare demands and lead to more rewarding careers for Ontarians. Diagnostic and Interventional Radiologists remain committed to working alongside the government and Ministry to provide high-quality diagnostic care to Ontario patients."

- Dr. David Jacobs

President , Ontario Association of Radiologists

Renfrew County 2023 Ontario Winter Games announce official Games' Values with CNL

January 13, 2023 – In sport, as in life, it is important to always demonstrate good character and conduct yourself according to the highest set of values. Today, the Renfrew County 2023 Ontario Winter Games, (OWG) presented by ROGERS in collaboration with Desjardins, present the Games' Values.

To help offer moral guidance and support to our athletes this year, the OWG has partnered with Canada's premier nuclear science and technology organization, Canadian Nuclear Laboratories (CNL), to adopt the company's core values.

CNL has long served as a major employer in Renfrew County, and as a trusted and reliable partner to our local communities and businesses. As Canada's national nuclear laboratories, CNL operates according to a strict set of core values that includes:

- **Integrity** – Adhering to high ethical standards and strong moral principles, even under pressure.
- **Respect** – Placing a high value on others, treating them fairly, and empathizing with their needs.
- **Teamwork** – The ability to work together, in a collaborative way, toward a common goal.
- **Accountability** – An attitude and a set of actions that affect how we impact people, situations and results in a positive way.
- **Excellence** – Striving to achieve an ever-rising standard of quality through continual improvement and innovation.
- **Safety** – Freedom from harm, danger, injury or loss to people and the environment.

"We are proud of the work that CNL has done for our community over the last 70 years, and we believe that the example they set can serve as an inspiration to our athletes, volunteers, spectators and officials at the Renfrew County 2023 Ontario Winter Games," said Cindy Burwell, OWG manager.

The OWG will draw more than 3,000 young athletes, coaches and officials from across Ontario to compete in 22 individual sports in Renfrew County in less than 20 days.

“CNL is genuinely excited to serve as a partner for the 2023 Ontario Winter Games, and to present the official values for this year’s competition,” commented Joe McBrearty, CNL’s President and CEO. “At CNL, our employees work hard to set a good example in the way we conduct ourselves as a company, and we hope that everyone at this year’s games – from the hosts and participants, to the families, fans and friends – will strive to uphold these same values while supporting our incredible athletes.”

Follow the OWG on social media as each value will be profiled leading up to the games, which will take place in February over two weekends – Feb. 2-5 and Feb. 9-12.

"Optimal Health for All in Renfrew County and District"

For Immediate Release

(Pembroke, Ontario, 3:47 p.m., January 12, 2023)

RCDHU Continues to Encourage Residents to Get a COVID-19 Booster Dose

Renfrew County and District Health Unit (RCDHU) is seeing an increase in local COVID-19 cases and facility outbreaks. As numbers continue to rise, RCDHU encourages residents to stay up to date with their COVID-19 vaccine boosters.

"Immunization against COVID-19 works, prevents many infections, and decreases the severity of illness. It is an important way to protect ourselves, people with whom we have contact, and the entire community. With the recent increase in disease activity, now is the time to get boosted for greater protection," states Dr. Ian Gemmill, Acting Medical Officer of Health, RCDHU.

It is recommended that individuals five years of age and over stay up to date with their booster doses, as protection from COVID-19 vaccines decreases over time. The National Advisory Committee on Immunization continues to recommend the bivalent COVID-19 vaccine as the preferred vaccine for a booster dose, as bivalent vaccines are expected to provide greater protection against the Omicron variants and subvariants. While not currently eligible for a booster dose, it is recommended that children six months to four years of age continue to be fully vaccinated (primary series only).

You should get a COVID-19 booster dose if it has been:

- **Three months since a COVID-19 infection or your last COVID-19 vaccine** for [individuals who are at high risk](#) of severe COVID-19 illness.
- **Six months since a COVID-19 infection or your last COVID-19 vaccine** for individuals aged five years and over who are not at high risk of severe COVID-19 illness. *Note:* With informed consent, you can choose to receive a COVID-19 booster dose at a minimum of three months (84 days) after your last dose (e.g., if there is an increased risk of exposure to COVID-19 within your community).

Individuals 6 months of age and older can receive other vaccines at the same time or at any time before or after a COVID-19 vaccine, with informed consent.

Staying up to date on vaccinations, masking in indoor public settings, practicing good hand hygiene, and staying home if you are ill, remain the top precautions for personal protection. COVID-19 vaccine clinics continue to be offered throughout the county; **no appointments are required** (with the exception of the Novavax clinics). For more information on COVID-19 vaccination and to view RCDHU's current clinic schedule, visit <https://www.rcdhu.com/novel-coronavirus-covid-19-vaccine-rollout/>.

COVID-19 vaccines are also available through health care providers and [participating pharmacies](#). For more information on COVID-19 please visit www.rcdhu.com.

Dear Friends,

In 2023, Renfrew County 55+ Senior Games will be hosted throughout Renfrew County. At the 2022 Summer Games we had 111 participants representing different areas of the County in 20 activities. Twenty-five participants continued to participate in Peterborough at the Provincial Level. We were pleased to finish with a Silver and two Bronze Medals.

For the 2023 Games, we are asking for Sponsorship, financially as well as in kind. The dates have not been confirmed as of yet.

In anticipation, the Renfrew County 55+ Games Committee and the Executive are once again busy planning this worthwhile event. This format was well received over the last few years, and with the expanded timetable of events and their distribution throughout the County more people were able to participate. The Committee was most appreciative of the municipalities that provided venues and volunteers. If your community is not involved this year or next and would like to participate, please contact Irene Churchill at imchurchill@nrtco.net. The venues for this year will be listed on the Registration Forms, which will be available at Municipal Offices, Seniors' Centres, and Recreational Facilities. Registration Forms will also be online at <http://www.osga55plus.ca/districts>.

There are 35 Districts in Ontario and we are in District #5. These Games provide an opportunity for everyone, 55 plus, to join in fun-filled activities of their choice. The benefits are invaluable, providing participants with stimulation, both mental and physical, and social interaction with people from all over Renfrew County. Always, new friendships and good memories are created, and we look forward to having a large number of contenders at these 2023 Games.

The individual registration fees cover much of the Games costs; however, outside financial assistance is always required. Your generosity in donating any amount will be greatly appreciated. All supporters will be officially recognized in the information package, and in the media at the completion of the Games.

Please submit your donation to: Renfrew County 55+ Seniors Games
Box 452
Pembroke, Ontario
K8A 0A0

Sincerely,

Gail Argue

Fundraising Chair

Thank you to the
Council for the
generous and on
going Support for
Special Olympics
Arnprior.

You have made such
a difference for
health and activity
in many people's lives.

Thank you

Greg Murdoch

Athlete Representative

January 9, 2023

Ms. Maureen Spratt, Town Clerk
Corporation of the Town of Arnprior
105 Elgin Street, West
Arnprior, ON K7S 0A8

Dear Ms. Spratt,

The Arnprior Regional Health Foundation would like to formally inform you of our intent to hold a Raffle beginning April 13th, 2023 and ending July 13th 2023, as licensed through the Alcohol and Gaming Commission.

The Jeep Adventure Lottery will be a raffle consisting of 3 early bird prizes and a Grand Prize of a 2023 Jeep Wrangler Unlimited Sport. The timeline(s) for this lottery are as follows:

April 13th, 2023: Lottery Begins

May 4th, 2023: “Build Your Own Package” – Donated by Domino’s Pizza, Arnprior

May 25th, 2023: 53” Television – Donated by No Frills, Arnprior

June 15th, 2023: \$2,000 Gift Card – Donated by Under My Roof

July 13th, 2023: Grand Prize Draw – 2023 Jeep Wrangler Unlimited Sport

As you know, our Foundation’s primary purpose is to support the purchase of life-saving equipment to put in the hands of medical professionals, right here in our local community. That said, this is where the proceeds from the Jeep Adventure Lottery will go. We are using a tagline of “Come Together” and this funding will ensure that excellent care close to home is an essential part of creating and maintaining a vibrant, healthy local community.

We are thankful to have the support of the Corporation of the Town of Arnprior and welcome any questions you may have.

Kind regards,

Ben Gardiner
Executive Director
Arnprior Regional Health Foundation
